1 INTRODUCTION TO MATHPULSE AI

1.1 WHAT IS MATHPULSE AI?

MathPulse AI is a learning app for Senior High School STEM mathematics. It follows the **DepEd Strengthened SHS curriculum** and gives every student a 24/7 AI tutor, guided lessons, and games that reward practice. Teachers see who needs help early, and administrators keep the school's data, curriculum, and AI usage in order.

Note: MathPulse AI runs in any modern web browser and can be installed on a phone like a regular app. No separate download store is needed.

1.2 INTENDED USERS

Students

Grade 11–12 STEM learners who study modules, take quizzes, chat with the AI tutor, and earn XP.

Teachers

Math teachers who manage classes, build AI quizzes, import grades, and track at-risk students.

Administrators

School staff who manage accounts, sections, curriculum files, AI health, and audit logs.

1.3 KEY FEATURES

L.O.L.I. AI Tutor

Step-by-step help, any time.

Curriculum Modules

DepEd lessons, materials, and quizzes.

Diagnostic Assessment

Finds strengths and gaps on day one.

Quiz Battle

1-vs-1 matches with classmates or a bot.

XP, Streaks & Ranks

Levels, leaderboards, and avatar rewards.

At-Risk Monitoring

Early warning for students who need help.

AI Quiz Maker

Teachers generate quizzes in minutes.

Curriculum Knowledge Base

AI answers grounded in DepEd modules.

2 SOFTWARE & HARDWARE SPECIFICATIONS

MathPulse AI works on phones, tablets, and computers. Use the recommended setup below for the smoothest experience.

FOR STUDENTS, TEACHERS & ADMINISTRATORS

ITEM	RECOMMENDED
Device	Smartphone, tablet, laptop, or desktop computer
Operating system	Android 7.0 or newer · iOS / iPadOS 16.4 or newer · Windows 10/11 · macOS · ChromeOS
Web browser	Latest Google Chrome, Microsoft Edge, Safari, or Firefox
Memory (RAM)	3 GB or more on phones; 4 GB or more on computers
Free storage	About 100 MB for the installed app and saved content
Screen	360 px wide or larger (any current smartphone)
Internet	Stable connection, 3 Mbps or faster. Required for the AI tutor, Quiz Battle, and saving progress

SYSTEM PLATFORM (FOR IT STAFF)

LAYER	TECHNOLOGY
Web app (PWA)	React 18, TypeScript, Vite, Tailwind CSS · hosted on Firebase Hosting
Android app	Capacitor 7 (Android 7.0+, target SDK 35)
Backend API	FastAPI on Python 3.11 · hosted on Hugging Face Spaces
Database	Cloud Firestore; Firebase Realtime Database for Quiz Battle matchmaking
Sign-in	Firebase Authentication (email & password, Google)
Automation	Cloud Functions for Firebase (Node.js 22) · Firebase Cloud Messaging for push alerts
AI models	DeepSeek (deepseek-chat for tutoring, deepseek-reasoner for curriculum lessons)
Knowledge base	ChromaDB vector store with BAAI/bge-small-en-v1.5 embeddings over DepEd SSHS modules

3 INSTALLATION & DEPLOYMENT GUIDE

3.1 OPEN MATHPULSE AI IN A BROWSER

- 1 Open your browser (**Chrome** on Android or computer, **Safari** on iPhone/iPad).
- 2 Go to <https://mathpulse-ai-2026.web.app>
- 3 Sign in with the account your school gave you (see Section 4).

3.2 INSTALL THE APP ON YOUR PHONE OR COMPUTER

ANDROID (CHROME)

- 1 Open the link in Chrome.
- 2 Tap the **: menu**, then **Install app** (or **Add to Home screen**).
- 3 Tap **Install**. MathPulse AI appears on your home screen.

IPHONE / IPAD (SAFARI)

- 1 Tap the **phone icon** at the top of the app.
- 2 Follow the guide: **Share** → **Add to Home Screen** → **Add**.

COMPUTER (CHROME / EDGE)

Click the **install icon** at the right end of the address bar, then **Install**.

Note: The installed app updates itself. When a new version is released, it loads automatically the next time you open MathPulse AI.

3.3 DEPLOYMENT GUIDE (IT STAFF)

These steps publish MathPulse AI for a school. They need a computer with **Node.js 22**, **Git**, and the **Firebase CLI**, plus access to the `mathpulse-ai-2026` Firebase project.

1 Get the code and install packages

```
git clone <repository-url> && cd MATHPULSE-AI
npm install
```

2 Add configuration. Copy `.env.example` to `.env.local` and fill in the Firebase and AI keys. Keep the Firebase service-account file in `.secrets/`. Never commit either one.

3 Build and publish the web app

```
npm run build
npx firebase deploy --only hosting --project mathpulse-ai-2026
```

4 Publish Cloud Functions (notifications, scoring, Quiz Battle)

```
cd functions && npm install && npm run build
npx firebase deploy --only functions --project mathpulse-ai-2026
```

5 Publish the backend API. Pushing changes under `backend/` to the `main` branch syncs them to the Hugging Face Space automatically. Set the Space secrets `FIREBASE_SERVICE_ACCOUNT_JSON`, `DEEPSEEK_API_KEY`, `DEEPSEEK_BASE_URL`, and `INFERENCE_PROVIDER`.

6 Optional: build the Android app

```
npm run android:release
```

7 Check the release. Open the site and sign in once as a student, a teacher, and an administrator.

Note: Only IT staff need this section. Students and teachers just open the link or install the app (Section 3.2).

4 SYSTEM ACCESS & AUTHENTICATION

Everyone signs in on the same screen. MathPulse AI opens the right home screen for your role automatically.

4.1 SIGNING IN

STEPS TO SIGN IN:

- 1 Type your **email address** and **password**, then tap **Sign In**. Tap the eye icon to show the password.
- 2 Forgot it? Tap **Forgot password?** (see 4.2).
- 3 Using a Google account from your school? Tap **Continue with Google**.

Note: Your school administrator creates teacher and administrator accounts. Students may also create their own account (4.2).

Security: Sign-in is protected by TLS. Your data is encrypted in transit and at rest.

4.2 CREATING AN ACCOUNT & RESETTING A PASSWORD

9:41

MathPulse AI

Create Account

1 FULL NAME

PASSWORD

CONFIRM

Create Account →

Sign up with Google

Already have an account? [Sign in](#)

Sign-in protected by TLS; data encrypted in transit and at rest

CREATE AN ACCOUNT

On the sign-in screen, tap **Create one**.

- 1 Enter your full name and choose **Student** or **Teacher**.
- 2 Students pick their **grade level**, **section**, and **track** so they join the right class.

Add your email and a password, then tap **Create Account**.

RESET YOUR PASSWORD

- 1 Type your account email and tap **Send reset link**.
- Open the email from MathPulse AI and choose a new password.
 - Tap **Back to sign in** and sign in with the new password.

Note: No email after a few minutes? Check your Spam folder.

9:41

MathPulse AI

Reset password

Enter your account email and we will send you a reset link.

4.3 YOUR HOME SCREEN BY ROLE

After signing in, each role lands on its own dashboard.

STUDENT DASHBOARD

TEACHER DASHBOARD

ADMIN DASHBOARD

SIGNING OUT

- 1 **Students:** tap **Profile** on the bottom bar, then **Sign Out**.
- **Teachers & administrators:** tap your photo at the top-right corner, then **Sign Out**.

Tip: Always sign out on shared or school computers.

5 USERS FUNCTIONS AND CAPABILITIES GUIDE

5.1 STUDENT

DASHBOARD

Your home base. It shows your progress and the next thing to study.

WHAT YOU'LL SEE:

- 1 Level & XP** – your current level and total experience points. Tap the **calculator** or **bell** icons on the right for tools and alerts.
- 2 Continue Learning** – jumps back to your last lesson.
- 3 Daily Goals** – how many lessons you finished today.
- 4 Streak** – days in a row you studied. Keep it alive for bonus rewards.

Scroll down to **Start Learning** to open any module.

ON A COMPUTER: KEYBOARD SHORTCUTS

Alt + D Dashboard

Alt + M Modules

Alt + C AI Chat

Alt + G Grades

Alt + B Quiz Battle

Alt + S Settings

Alt + K Calculator

GETTING AROUND

- 1 Some bottom-bar buttons open a **small menu**. Tap an item to open it.
- 2 The **bottom bar** is always visible:

BUTTON	OPENS
Dashboard	Home screen
Modules	Modules · Assessment
Mascot (center)	AI Chat · Avatar Studio
Quiz Battle	Quiz Battle · Leaderboard
Profile	My Profile · Settings · Sign Out

MODULES

All DepEd Strengthened SHS modules for your grade.

- 1 **Search & filters** – find a module by title or narrow it by quarter.
- 2 **Module card** – shows the subject, your progress bar, and the number of lessons and quizzes. Tap it to open.

INSIDE A MODULE

- 1 **Module Mastery** – how much of the module you have completed.
- 2 **Study Journey** – each lesson in order:
 - **Play button** – start the lesson (theory, examples, and *Try-It-Yourself* steps).
 - **Study Materials** – reading files for the lesson.
 - **Quiz** – check your understanding and earn XP.

GRADES & ASSESSMENT

- 1 **Export Report** – save your grades as CSV or PDF.
- 2 **Average, Focus, Quizzes** – your score average, the subject to practice, and quizzes completed.
- 3 **Initial Diagnostic Results** – your starting score and risk level. Tap **View Full Analysis** for details.

New students take a short **diagnostic assessment** first. MathPulse AI uses it to build your personal learning path.

AI CHAT – L.O.L.I. TUTOR

Open the **mascot button** → **AI Chat**. L.O.L.I. explains math step by step and answers from DepEd modules.

- 1 Tap **+ New** to start a chat, or search past conversations. Tap any chat in the list to continue it.

ASKING A QUESTION

Type your question in the box at the bottom and tap send.

- 1 **Step-by-step answers** with proper math formatting. L.O.L.I. guides you instead of only giving the answer.
- 2 **Quick prompts** – tap **Explain step-by-step**, **SHS practice problem**, or **Simplify** to continue.

Note: *AI can make mistakes. Check important answers with your teacher.*

AVATAR STUDIO

Dress up your mascot with items you unlock using XP.

- 1 **XP balance** – XP you can spend.
- 2 **Wardrobe** – pick a category tab, then tap an item. Locked items show their XP price.

Tap **Save Changes** to keep your look, or **Reset Avatar** to start over.

QUIZ BATTLE

Fast 1-vs-1 math matches with live scores and XP rewards.

- 1 Choose a battle mode:
 - **VS Player** – match with a classmate or join with a room code.
 - **VS Bot** – practice alone with adjustable difficulty.

Hall of Fame below lists the top arena champions.

LEADERBOARD

- 1 Switch rankings between **Daily**, **Weekly**, and **All Time**.
- 2 See your rank and the XP you need to pass the next student. Tap **Battle** to earn XP fast.

Class Standings below ranks students in your section.

NOTIFICATIONS

Tap the **bell** at the top-right corner.

- 1 See new quizzes from your teacher, daily rewards, check-in reminders, and assessment results. A dot marks unread alerts. Tap **Mark read** to clear them.

Tip: Turn on **Alerts & Reminders** in *Settings* to receive push notifications.

MY PROFILE

- 1 **Student Pass** – your digital school ID with LRN, grade, and section. Tap **Tap to flip card** to see the back.
- Tap **Edit Profile** to update your details.

SETTINGS

- 1 Open a section to change it:
- **Display & Theme** – light or dark mode
- **Alerts & Reminders**
- **Login & Password**
- **My Data & Files**

CALCULATOR

- Tap the **calculator** icon at the top for a full scientific calculator.
- 1 **Verify with SymPy** double-checks your answer.
 - On a computer, press **Alt + K**.

5.2 TEACHER

DASHBOARD

- 1 **Class summary** – total students, class average, engagement, and students who need attention.
- 2 **My Classes** – tap **Manage** to open a class, or the trash icon to delete it.

Top-right icons: **AI Insight** (sparkle), **calendar**, **notifications**, and your **profile**.

BOTTOM BAR	OPENS
Dashboard	Home screen
Teaching	My Classes · Schedule & Calendar
AI Tools	AI Quiz Maker · Question Bank · Data Import
Insights	Topic Mastery · Module Availability

MY CLASSES

- 1 Pick a class, or tap **+ New Class** to create one.
- 2 **Class analytics** – average, module completion, participation, and at-risk count.
- 3 **Students** – search, filter by **Top Performers** or **Needs Attention**, and tap **Add** to enroll.

SCHEDULE & CALENDAR

- 1 Move between months. Dots under a date mark scheduled events.
- 2 Tap a date, then **+ Add Event** for quizzes, deadlines, or reminders.

AI QUIZ MAKER

- 1 **Create Quiz** or open saved quizzes in **Quiz Bank**.
- 2 Follow 4 steps: **Setup** → **Topics** → **Question Style** → **Preview**.
- 3 Enter the title, grade, and number of questions, then tap **Next**.

Review the AI questions in Preview before assigning them.

QUESTION BANK

- 1 **Ingest New PDF** – enter the PDF's storage path, grade level, and topic, then tap **Ingest PDF**. MathPulse AI pulls quiz questions out of it.

Processing Status below shows each PDF's progress.

DATA IMPORT

- 1 Choose the **class** the file belongs to.
 - 2 Upload a **class record** spreadsheet (.csv, .xlsx, .xls).
- Below it, upload **curriculum documents** (.pdf, .docx, .txt) or import student accounts.

Why import? Grades feed the risk score that flags students who need help.

TOPIC MASTERY

- 1 Switch between the **Mastery Matrix** (scores per topic) and the **Competency Matrix** (DepEd competencies).
- Filter by class, subject, and grade.
 - Cards count topics that are mastered, need work, or are excluded from quizzes.

MODULE AVAILABILITY

- 1 Counts of modules that are **Available**, use **Teacher Material**, are **Coming Soon**, or are **Unavailable**.
- 2 Tap **Configure** to open or close a module for students, or attach your own PDF when standard content is missing.

AI INSIGHT

Tap the **sparkle** icon at the top of the dashboard.

- 1 A short teaching suggestion based on your classes' recent results.
Tap **Minimize to Menu** to close it.

5.3 ADMINISTRATOR

DASHBOARD

- 1 Quick actions** – add a faculty member or student, open class sections, upload curriculum, or open the analytics hub.
- 2 School summary** – teaching faculty, active sections, AI tutor sessions, and students needing academic support.

- 1** Bottom-bar buttons open small menus:

BUTTON	OPENS
Overview	Admin dashboard
Manage	Users · Classes
AI	RAG Manager
Curriculum	Curriculum Control · Content PDFs
Insights	Analytics · Audit Log

USERS

- 1 Totals for all, active, admin, teacher, and student accounts.
- 2 Search by name, email, or LRN. Use the buttons beside it to filter, refresh, or **add a user**.
- 3 On each account: **Edit**, **Deactivate**, or delete.

Tip: Deactivate instead of delete when a student transfers. Their records stay safe.

CLASSES

- 1 Sections in total, with a teacher, and without one.
- 2 Pick a teacher from the list to assign a section, or tap **Unassign Teacher**.

RAG MANAGER

Manages the curriculum knowledge base the AI tutor reads from.

- 1 Indexed sections, active subjects, ingested documents, and pipeline status (**Online** = healthy).
- 2 Tap **Rebuild Knowledge** after uploading new curriculum files.

CURRICULUM CONTROL

Lists every math subject, with counts of available and locked ones at the top.

- 1 Use the **switch** on a subject card to make it available or lock it. The card shows its grade and quarters.

CONTENT PDFS

- 1 Switch between **Import Modules** and **File Inventory**.
- 2 Drop an official DepEd module PDF (up to 50 MB) to add it to the AI knowledge base.

ANALYTICS

- 1 Pick a time range (**7D**, **30D**, **90D**, **All**) and tap **Export Report** to download.
- Cards show active learners, mastery average, quizzes taken, and at-risk students.
- Charts below show learning trends over time.

AUDIT LOG

A record of important system and admin actions.

- 1 **Export CSV** saves the log for reports.
- 2 Each event shows its type, actor, and time. Tap **Inspect** for full details.

6 TROUBLESHOOTING & COMMON ISSUES (FAQ)

Try these quick fixes first. If a problem continues, contact your teacher or school administrator.

Q I can't sign in.

- Check the email spelling and that Caps Lock is off.
- Use **Forgot password?** to set a new one.
- Still blocked? Your account may be deactivated. Ask your administrator.

Q The reset email never arrived.

- Wait 5 minutes and check Spam or Promotions.
- Make sure you typed the email your account uses.

Q The app is stuck on "Loading..."

- Check your internet connection.
- Close and reopen the app, or refresh the page.
- Update your browser to the latest version.

Q L.O.L.I. says the AI tutor is unavailable.

- The AI service is busy or offline for a moment.
- Wait a minute and send your question again. Your chats are saved.

Q I don't see an install option.

- **iPhone:** use Safari, then Share → Add to Home Screen.
- **Android:** use Chrome → : menu → Install app.
- Already installed? The option is hidden.

Q I'm not getting notifications.

- Allow notifications for MathPulse AI in your phone or browser settings.
- Turn on **Alerts & Reminders** in Settings.

Q My XP or streak didn't update.

- Refresh the app; progress syncs when you are online.
- A streak counts once per day, so finish at least one activity daily.

Q Quiz Battle can't find an opponent.

- Few players may be online. Try **VS Bot**.
- Or share a **room code** with a classmate.

Q A module is locked or "Coming Soon".

- Your teacher or administrator has not opened it yet.
- Ask your teacher when it will be available.

Q The screen looks too dark or too bright.

ALL

- Go to **Settings** → **Display & Theme** and choose Light or Dark mode.

Q My spreadsheet import failed. **TEACHER**

- Use a .csv, .xlsx, or .xls file.
- Select the target class before uploading.
- Keep the DepEd class-record layout (names and scores in their columns).

Q The AI gives off-topic answers. **ADMIN**

- Open **RAG Manager** and check the pipeline is **Online**.
- After uploading modules, tap **Rebuild Knowledge**.

Q I see an "offline" page.

- Your device lost its connection. Reconnect and the app reloads.

Q A user can't see their class. **ADMIN**

- Check the student's section in **Users**.
- Check a teacher is assigned in **Classes**.

7 SYSTEM MAINTENANCE & SECURITY

7.1 BUILT-IN SECURITY

Secure sign-in

Firebase Authentication handles passwords. MathPulse AI never stores them.

Role-based access

Students, teachers, and admins only see what their role allows, in the app and on the server.

Encrypted data

Data is encrypted in transit (TLS) and at rest.

Audit trail

Admin and system events are logged and can be exported.

Rate limits

The API limits requests per role to stop abuse and runaway AI costs.

Private keys

API keys live in protected server secrets, never in the app or the code.

7.2 GOOD HABITS FOR EVERY USER

- Use a strong password you don't use anywhere else.
- Never share your account or password.
- Sign out on shared or school computers.
- Lock your phone with a PIN or fingerprint.
- Keep your browser and phone updated.
- Report strange account activity to your administrator.

7.3 MAINTENANCE CHECKLIST (ADMINISTRATORS & IT)

TASK	HOW	HOW OFTEN
Review security events	Insights → Audit Log ; check warnings	Weekly
Refresh the knowledge base	AI → RAG Manager → Rebuild Knowledge	After new uploads
Update sections & teachers	Manage → Classes	Each semester
Clean up accounts	Manage → Users ; deactivate graduates and transferees	Each school year
Back up the database	Firebase Console → Firestore → Import/Export to a Cloud Storage bucket	Monthly
Rotate secret keys	Replace AI and service-account keys; update Space secrets	Every 6 months, or right away if exposed
Publish updates	Follow Section 3.3; test all three roles after release	Each release

7.4 BACKUP & RECOVERY

- Keep at least the last 3 monthly Firestore exports.
- To restore, import an export from the Firebase Console.
- Curriculum PDFs stay in Firebase Storage. Rebuild the knowledge base after restoring.

7.5 DATA PRIVACY

- Collect only what lessons need: name, LRN, grade, and section.
- Give admin roles only to staff who need them.
- Follow the Data Privacy Act of 2012 (RA 10173) for student records.

A APPENDIX A: GLOSSARY OF TERMS & SYSTEM DEFINITIONS

TERM	DEFINITION
XP (Experience Points)	Points earned from lessons, quizzes, and battles. XP raises your level and buys avatar items.
Level	Your rank in the app. It goes up as your total XP grows.
Streak	The number of days in a row you completed an activity.
Daily Goals	The number of lessons to finish each day.
Module	A group of lessons on one DepEd topic (e.g., Business and Finance).
Module Mastery	The percentage of a module's lessons and quizzes you have completed.
Diagnostic Assessment	The first test a new student takes. It measures starting skills and builds the learning path.
Learning Path	The personal order of lessons recommended for each student.
Risk Level	A label (Low, Moderate, High) showing how much support a student may need, based on diagnostic results, grades, and in-app scores.
At-Risk Student	A student whose risk level means a teacher should step in.
Intervention	Extra tasks or materials a teacher assigns to help an at-risk student.
L.O.L.I.	Logical Operations & Learning Intelligence, the MathPulse AI math tutor and mascot.
Quiz Battle	A live 1-vs-1 math match against a classmate or a bot.
Leaderboard	Rankings of students by XP (daily, weekly, all time).

TERM	DEFINITION
Avatar Studio	Where students customize their mascot with items unlocked by XP.
Student Pass	A student's digital school ID inside the app.
LRN	Learner Reference Number, the DepEd student ID.
Topic Mastery	A teacher view of class scores per topic and competency.
Module Availability	Whether students can open a module: Available, Teacher Material, Coming Soon, or Unavailable.
RAG (Retrieval-Augmented Generation)	The method the AI uses to look up DepEd modules before it answers, so replies match the curriculum.
Knowledge Base / Vector Store	The searchable index of curriculum text that RAG reads from.
Audit Log	A record of important system and administrator actions.
PWA (Progressive Web App)	A website that installs and runs like a phone app.
DepEd SSHS	Department of Education Strengthened Senior High School curriculum.

REVISION HISTORY

This section documents the version history and changes made to this manual.

VERSION	DATE	DESCRIPTION	AUTHOR
1.0	Oct 8, 2026	Initial release of the MathPulse AI User Manual	Cabigon, L. / Lazaro, D. / Nonoy, F. / Rosado, R. / Vasquez, S.

THANK YOU FOR USING MATHPULSE AI.

This manual guides students, teachers, and administrators in using MathPulse AI's learning, teaching, and management features. For help or system updates, refer to future revisions of this document.
